**Series 10000 Mod "B"**

**Component Listing and Storage Data**

**THIS ITEM DOES NOT  
CIRCULATE**

**U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**Public Health Service**

This publication provides an alphabetical listing of all items packed in the Packaged Disaster Hospital by medical sections and case number sequences, including the following additional information in order as listed:

- a. Case Number
- b. Federal Stock Number
- c. Storage Code (Key to Storage Code, See Page viii)
- d. Identification of Items
- e. Unit of Issue and Price per Single Item
- f. Total Quantity
- g. Total Weight for Quantity Listed
- h. Total Cube for Quantity Listed

General information concerning the PDH will be found in Public Health Service Publication No. 1071-D-6, "The Packaged Disaster Hospital . . . Improved Mass Casualty Care." The book is available from the Division of Emergency Health Services, HSMHA, Public Health Service, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20852, or may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

## INTRODUCTION

### SERIES 10000 MOD "B"

#### PACKAGED DISASTER HOSPITAL

The components listed in this publication comprise a completely functional 200-bed Packaged Disaster Hospital (PDH) with a 30-day emergency operational capability. The Series 10000, Modification B, PDH, as described herein, represents one type of updated and refurbished PDH.

The purpose of this publication is to provide a component listing of the Mod "B" by hospital section and packing case number. The items are presented in case number sequence, with components of mixed cases listed in alphabetical order. Other pertinent data and information on this PDH and its components are presented in the main list or in special tables.

The following information is provided on each component of the Mod "B" PDH:

1. Case number
2. Federal stock number
3. Storage code
4. Nomenclature
5. Unit of issue
6. Unit price
7. Total quantity per PDH

Weights and cubes of packing cases are included, as well as storage and transportation data summaries.

All information presented in this publication is subject to change without notice, as substitution of functionally equivalent items may be made in the assembly of Mod "B" PDH's to utilize existing depot stocks of materials or to reflect changes in medical practice. Such modifications may necessitate variations in the component schedules and packing arrangements in individual units.

## LOGISTICS AND COMPOSITION

### PACKAGED DISASTER HOSPITAL

THE HOSPITAL CONSISTS OF 583 LINE ITEMS PACKED IN 487 CASES.

#### STORAGE REQUIREMENTS

The following storage requirements are based on 6 foot stacking height plus dunnage and access aisles for inspecting stock:

	<u>No. of Cases</u>	<u>Total Cubic Feet</u>
Heated Storage (Items subject to damage by freezing)	7	30
Cold Storage (35° to 46° F)	4	24
Flammable Storage (Items which might constitute a fire hazard to other stocks)	15	50
General Storage (All other items)	461	5400

#### ITEMS FOR ROTATION

Some PDH agreements provide for the rotation of certain shelf-life items with an affiliated hospital. This may cause some variance with the overall logistics and storage requirements stated herein.

#### TRANSPORTATION DATA

Total Weight	35, 302 lbs.
Total Cube	2, 315.4 cu. ft.

## PACKING LISTS

There are 44 cases containing an assortment of items in order to reduce the total number of boxes. Of these mixed cases, those with 4 or more different items are identified with a packing list in an envelope -- one copy attached to the outside of the box -- the other copy placed inside the box.

## COMPONENT LISTING AND STORAGE DATA

This document serves as a master packing list for the entire hospital and a copy is attached to Case No. 485 (Water Tank), Case No. 545 (Mixed Case -- Tools) and inside Case No. 450 (Mixed Case -- Laboratory Supplies).

## CASE NUMBERS

To readily identify the contents of each case, the following case numbers have been assigned:

<u>Section</u>	<u>Mixed Cases</u>	<u>Single Item Cases</u>
I	1/4	5/70
II	75/78	79/290
III	295/307	308/330
IV	335/341	342/432
V	--	550/551
VI	440/441	442/443
VII	450/453	454/457
VIII	--	460/465
IX	470/471	472/473
X	480	481, 484/486
XI	495/496	497/499
XII	505	--
XIII	510/512	513/540
XIV	545	--

Several numbers have not been used, but may be used in the future to permit replacements or additions to the hospital.

## PRICE

The price per unit of issue, as stated in this publication, is a fixed average unit price computed on the basis of total quantity of an item procured for the medical stockpile. It does not reflect the current replacement cost of an item.

## KEY TO STORAGE CODE COLUMN

Symbols shown below express the following:

- A No specialized storage requirements with respect to temperature; however, a dry, covered storage area is required.
- B Normal warehouse temperatures required not below 50°F nor above 86°F (for all localities).
- C Refrigeration temperatures required (35°F to 46°F).
- I Flammable. Should be kept in separate area where it will not create fire hazard for other stocks.
- K Drug abuse control item.
- N Do not freeze; subject to damage by freezing (temperatures below 32°F).
- Po Items with potency period governed by expiration date.

PROPRIETARY NAMES  
(Trade Names)

OF OFFICIAL DRUGS AND CHEMICALS

1. A selected list of proprietary names (trade names) are cross-referenced to their appropriate Federal item names as used in this publication.
2. Trade-name information related in any manner to the product of a manufacturer contained in this catalog is included only as an aid in the conduct of official business and does not indicate an endorsement of the product listed in preference to comparable products which may not be listed. The inclusion of a trade name in this list does not indicate that the manufacturer's specific item will be furnished or is in the supply system.

PROPRIETARY NAMEFEDERAL ITEM NAME

Adrenalin .....	Epinephrine
